STRENGTHENING COMMUNITY ORGANISATIONS IN DIFFICULTY

A practical recovery and capability-building partnership

EV helps viable small and medium community organisations move from organisational distress to stability, stronger capability and informed decisions about their future.

WHEN ORGANISATIONS STRUGGLE

Governance problems, weak financial capability, conflict, leadership pressures and poor organisational systems can combine to threaten otherwise valuable community organisations.

EV'S POINT OF DIFFERENCE

We do not provide a report and step away. We provide sustained, hands-on implementation support, working alongside boards and management until the organisation is stabilised and its capability has been rebuilt.

OUR RECOVERY PATHWAY

1
STABILISE
Identify immediate governance, financial and operational risks.

2
REBUILD
Restore sound governance, financial controls and organisational practice.

3
STRENGTHEN
Build board and management capability to operate effectively.

4
PLAN THE FUTURE
Support decisions on independence, partnerships, restructuring and growth.

HOW WE REBUILD ORGANISATIONAL CAPABILITY

GOVERNANCE
Rebuild effective board practices; clarify roles, delegations and accountability; strengthen oversight, decision-making and succession.

FINANCIAL CAPABILITY
Improve financial literacy, reporting, controls, budgeting, cash-flow oversight and understanding of organisational viability.

ORGANISATIONAL PRACTICE
Restore practical policies, processes, management disciplines, people practices and risk controls required for sustainable operation.

FUNDING DIVERSIFICATION
Assess funding concentration; strengthen tender and grant readiness; explore earned income, partnerships and a broader revenue mix.

THE EXPERIENCE WE BRING

Not-for-profit and community-sector executive management | Corporate finance and management | People leadership | Sophisticated conflict management

THE OUTCOME

An organisation that is stable, better governed, financially capable and equipped to make informed decisions about its future, including how it can diversify its funding base.

"We work alongside organisations through recovery, helping to implement change until they can move forward with confidence."
